**Subject:** Microsoft Settlement

The settlement proposed in this case against Microsoft, does NOT consider the Public interest in the least. It serve only to extent the HOLD that MicroSoft already has on the general computer user.

I would like to propose that a provision to separate the MS-Windows Graphical Users Interface (AKA: GUI) from the underlying Operating System (AKA: OS) also be added to the agreement.

Thank you for your time in this matter.

Sincerely,

Programmer/Analyst
